Preface

Locating and listing publications of yesteryear, especially before the advent of internet and electronic recording systems is bound to be incomplete, erroneous and imbalanced. Any such omissions and commissions are purely incidental and unintentional. Suggestions and corrections are welcome; so that a future edition could be error-free. Aim of this publication is to facilitate more research and publications by Sri Lankan authors. Hard copies of most of the listed articles are available at the Sri Lanka Medical Library located at No: 6, Wijerama Mawatha, Colombo 7, Sri Lanka. The Sri Lanka Medical Library can be contacted through E-mail: srilml@sltnet.lk or by phone: +94112695188.
